Buy Neat Image Neat Image - Photoshop CS3, CS4, CS5, CS6 Neat Image 6.0.1.exe HOW TO USE NEAT IMAGE: ADD NEAT IMAGE TO YOUR SHORTCUTS ALT+T, ALT+R, ALT+OPT, ALT+N, and ALT+H In Adobe Photoshop click on Image on top menu Bar, go to Open Image.... In File menu go to New, under the template category In the from template category click on Neat Image and load the input image. Press OK to save the settings All image settings are saved in Neat Image File template. You can go to File menu and rename the Neat Image File as you wish, I did :) You can save the output file in JPEG, TIFF, PSD and PNG for different uses. CAPTURE YOUR NEW IMAGE: Press and hold the Alt key on your keyboard (or your Mac menu bar) Drag the output file and drop to a new page in your Photoshop document, it is saved as a Photoshop File. Upload the new file to your online software (mysite.com, photobucket.com) like I did. After you are done editing you just have to make the changes in Neat Image and with click OK, one piece of the file is converted to another while applying the new settings, The "Noise Reduction" converts the whole image as well as any further edits. At last, The "Sharpen" does the basics, adds a nice effect by sharpening the edges and smoothing, it is all you need for any post processing. . See S.C.Code Ann. §
